Carles Capellas

capellas.carles@gmail.com   https://carlescapellas.xyz

I like to explore ideas and share them with other people. From blackjack card game strategy (⤢) to fractal patterns generation (⤢), I've found software development to be the best method to illustrate concepts and make them accessible to people. I enjoy developing, so that's what I have been dedicating a good part of my life to. Here is an abstract:

2009 mar ↪ 2010 may	⌨️	First contact with programming. Co-developed a VB 6.0 application to control laundering machines that was awarded in the catalan Young Research Awards in 2010
2011 sep ↪ 2015 oct	🎓	Expanded programming and computers knowledge in Barcelona School of Informatics by studying the **Bachelor's Degree in Informatics Engineering**
2012 jun ↪ 2013 dec	🔨	Co-founder of https://desdecasa.cat. 33 restaurants joined the discounts platform (5% to 50% discounts) and 150 users purchased the membership card
2014 sep ↪ 2015 feb	🌍	First time living abroad, studying on the Erasmus exchange program in the Warsaw University of Technology, Poland
2015 mar ↪ 2016 dec	💼	First job working as **full stack developer** at **Itequia**, developing SharePoint 2013 custom solutions. *Main technologies: ASP.NET Web API 2, Angular 1.5*
